INDEPENDENT AUDITOR'S REPORT

Honorable Chairman and Members
of the Fire District
Mantua Township Fire District No. 1
155 Union Avenue
Sewell, New Jersey 08080

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Mantua Township Fire District No. 1, as of December 31, 2016 and 2015, and the related notes to the financial statements, which collectively comprise the Mantua Township Fire District No. 1's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Mantua Township Fire District No. 1, as of December 31, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis and budgetary comparison information* identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Mantua Township Fire District No. 1's basic financial statements. The combining and individual non-major fund financial statements is the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The combining and individual non-major fund financial statements is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements, listed in the table of contents, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and letter of comments and recommendations section has not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 24, 2017, on our consideration of the Mantua Township Fire District No. 1's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Mantua Township Fire District No. 1's internal control over financial reporting and compliance.

NOTES TO FINANCIAL STATEMENTS

MANTUA TOWNSHIP FIRE DISTRICT NO. 1
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016 and 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Reporting Entity

The Mantua Township Fire District No. 1 is a political subdivision of the Township of Mantua, Gloucester County, New Jersey. It was formed on January 1, 2007, through the adoption of a Township ordinance. A board of five commissioners oversees all operations of the Fire District. The length of each commissioner's term is three years with the annual election held the third Saturday of every February. The Chairman and other officers of the Board of the Fire District are selected from amongst the members of the Board.

The governing body of any municipality which does not have a paid or part-time fire department may, upon application of at least twenty voters or at least five percent of the registered voters, whichever is greater, by ordinance, designate a territorial location (or locations) for use as a fire district(s).

The Fire District is responsible for the prevention and suppression of fire within the Township. The Fire District encompasses approximately twenty (20) square miles of territory and is coterminous with the boundaries of the Township. Rescue and ambulance services are provided by separate first aid squads within the Township.

Fire districts are governed by NJSA 40A:14-70 et al. and are organized as a taxing authority charged with the responsibility of providing the resources necessary to provide firefighting services. The Fire District operates two separate volunteer fire stations within its jurisdiction, the Jackson Road station and the Union Avenue station. The volunteer companies are staffed by approximately 30 trained volunteers.

Basis of Presentation

The financial statements of the Fire District conform to accounting principles generally accepted in the United States of America applicable to governmental funds of state and local governments in accordance with the provisions of NJAC 5:31-7.1. The Fire District's financial statements include all the accounts of all the Fire District's operations. The primary criterion for including activities within the reporting entity, as set forth in Section 2100 of the GASB, Codification of Governmental Accounting and Financial Reporting Standards is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the Fire District holds the corporate powers of the organization
- the Fire District appoints a voting majority of the organization's Board
- the Fire District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the Fire District
- there is a fiscal dependency by the organization on the Fire District

Based on the above criterion, the Fire District is a component unit of the Township of Mantua. The Fire District does issue separate financial statements from the Township. However, if the Township presented its financial statements in accordance with GAAP, these financial statements would be included in the Township's on a blended basis. Based on the aforementioned criteria, the Fire District has no component units to be presented in accordance with Governmental Accounting Standards Board Statement No. 14.

Generally, the financial statements are presented using the flow of current financial resources measurement focus and modified accrual basis of accounting. Accordingly, the Fire District accounts for its transactions through the use of funds and account groups.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

DESCRIPTION OF FUNDS:

Governmental Funds

General Fund - The General Fund is the general operating fund of the Fire District and is used to account for the inflows and outflows of its financial resources except those required to be accounted for in another fund. The acquisition of certain capital assets, such as firefighting apparatus and equipment, is accounted for in the General Fund when it is responsible for the financing of such expenditures.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue sources, such as state or federal government grants and appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities such as fire houses and firefighting apparatus. Generally, the financial resources of the Capital Projects Fund are derived from the issuance of debt or by the reservation of fund balance, which must be authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The Debt Service Fund is used to account for resources that will be used to service general long-term debt liabilities recorded in the Debt Service Fund.

Basis of Accounting

The financial statements of the Mantua Township Fire District No. 1 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Fire District's accounting policies are described below.

Basis of Accounting, Measurement Focus, and Basis of Presentation

The Fire District's basic financial statements consist of District-wide statements, including a Statement of Net Position and a Statement of Activities, and a fund financial statement which provide a more detailed level of financial information.

District-Financial Statements - The Statement of Net Position and Statement of Activities display information about the Fire District as a whole. These statements include the financial activities of the overall Fire District except for Fiduciary Funds. Governmental Activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

Statement of Net Position

The Statement of Net Position presents the financial condition of the Governmental Activity of the Fire District at year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the Fire District's Governmental Activities. Fire Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and

Statement of Net Position (Continued)

contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the Fire District.

Net Position - Net position represent the difference between assets and liabilities. Net position includes amounts invested in capital assets; net of related debt consists of capital assets, net of accumulated depreciation, reduced by outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Fire District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

Revenues - Revenues are recorded when received in cash except for certain amounts which are due from other governmental units. Receipts from federal and state grants are realized as revenue when anticipated in the budget. Fund balance utilized to balance the budget is recorded as revenue and budgeted transfers from other funds are also recorded as revenue when anticipated in the budget.

Expenditures - Expenditures are recorded on the "budgetary" basis of accounting. Generally, expenditures are recorded when an amount is encumbered for goods and services through the issuance of a purchase order in conjunction with the Encumbrance Accounting System. Outstanding encumbrances at December 31 are reported as a cash liability in the financial statements and as accounts payable. Budgeted transfers to other funds are recorded as expenditures when the budget is adopted, to the extent permitted or required by law. Appropriations for principal payments on outstanding bonds and notes are provided on the cash basis; interest is also on the cash basis.

Encumbrances - Encumbrance accounting is used for the General Fund, and Capital Projects Fund. Encumbrances are recorded when purchase orders are issued but are not considered expenditures until liabilities for payments are incurred. Encumbrances are reported as reservations of fund balance on the balance sheet. Encumbrances do not lapse at the close of the fiscal year but are carried forward as reserved fund balance until liquidated.

Income Taxes - As a public body, under existing statutes, the Fire District is exempt from both federal and state taxes.

Capital Assets - The Fire District has established a formal system of accounting for its capital assets. Purchased or constructed capital assets are reported at cost. Donated capital assets are valued at estimated fair market value on the date received. The cost of normal repairs and maintenance are not capitalized. The capitalization threshold used by the Fire District is \$5,000.00.

Police and Firemen’s Retirement System (PFRS) - The Police and Firemen’s Retirement System was established in July 1944, under the provisions of NJSA 43:16A to provide coverage to substantially all full-time county or municipal police and fire-fighters and State fire-fighters appointed after June 30, 1944. Enrollment is required for permanent, full-time employees appointed to positions in law enforcement or firefighting in the State of New Jersey.

Funding Policy - The contribution policy is set by NJSA 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997, and NJSA 18:66 and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. PFRS provides for employee contributions of 10% thereafter of employees’ annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in PFRS. The PFRS rates in effect for 2016 are 25.67%, respectively, of covered payroll, as reported on June 30, 2014. The actuarially determined contribution includes funding for, cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums.

Contributions and Accrued Liability - Per the shared service agreement with the Township, the Fire District is to be billed annually for its normal contribution, plus any accrued liability, by the Township of Mantua, who maintains, administers, and reports to the State of New Jersey all required pension information on behalf of the Fire District. For the years ended December 31, 2016, 2015, and 2014, the Fire District was not billed by the Township for its share of contributions or accrued liability to the aforementioned pension plans.

NOTE 12: PENSION FUNDS (CONTINUED)

Significant Legislation - Chapter 78, P.L. 2011, effective June 28, 2011, made various changes to the manner in which the Public Employees' Retirement System (PERS) and the Police and Firemen's Retirement System (PFRS) operate and to the benefit provisions of those Systems.

Chapter 78's provisions impacting employee pension and health benefits include:

- New members of the PERS hired on or after June 28, 2011, (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of $\frac{1}{4}$ of 1% for each month that the member is under age 65.
- The eligibility age to qualify for a service retirement in the PERS is increased from age 63 to 65 for Tier 5 members.
- The annual benefit under special retirement for new PFRS members enrolled after June 28, 2011, (Tier 3 members), will be 60% instead of 65% of the member's final Compensation, plus 1% for each year of creditable service over 25 years but not to exceed 30 years.
- The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law.
- New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to Chapter 78's effective date with a minimum contribution required to be at least 1.5% of salary.
- In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

Chapter 1, P.L. 2010, effective May 21, 2010, made a number of changes to the State administered retirement systems concerning eligibility, the retirement allowance formula, the definition of compensation, the positions eligible for service credit, the non-forfeitable right to a pension, the prosecutor's part of the PERS, special retirement under the PFRS, and employer contributions to the retirement systems.

Also, Chapter 1, P.L. 2010 changed the membership eligibility criteria for new members of PERS from the amount of annual compensation to the number of hours worked weekly. Also, it returned the benefit multiplier for new members of PERS to 1/60th from 1/55th, and it provided that new members of PERS have the retirement allowance calculated using the average annual compensation for the last five years of service instead of the last three years of service. New members of PERS will no longer receive pension service credit from more than one employer. Pension service credit will be earned for the highest paid position only. For new members of the PFRS, the law capped the maximum compensation that can be used to calculate a pension from these plans at the annual wage contribution base for social security, and requires the pension to be calculated using a three year average annual compensation instead of the last year's salary. This law also closed the Prosecutors Part of the PERS to new members and repealed the law for new members that provided a non-forfeitable right to receive a pension based on the laws of the retirement system in place at the time 5 years of pension service credit is attained. The law also requires the State to make its full pension contribution, defined a 1/7th of the required amount, beginning in fiscal years 2012.

NOTE 12: PENSION FUNDS (CONTINUED)

Significant Legislation (Continued) - Chapter 3, P.L. 2010, effective May 21, 2010, replaced the accidental and ordinary disability retirement for new members of the PERS with disability insurance coverage similar to that provided by the State to individuals enrolled in the State's Defined Contribution Retirement Program (DCRP).

Chapter 92, P.L. 2007 implemented certain recommendations contained in the December 1, 2006, report of the Joint Legislative Committee on Public Employee Benefits Reform; established a DCRP for elected and certain appointed officials, effective July 1, 2007; the new pension loan interest rate became 4.69% per year, and an \$8.00 processing fee per loan was charged, effective January 1, 2008. The legislation also removed language from existing law that permits the State Treasurer to reduce employer pension contributions needed to fund the Funds and Systems when excess assets are available.

NOTE 13: LABOR CONTRACTS

As of December 31, 2016, the Fire District's employees are organized in the following collective bargaining units. Contracts are continually being negotiated the following table shows their current status.

NOTE 15: POST-EMPLOYMENT BENEFITS

Plan Description - The New Jersey State Health Benefits Commission is a cost-sharing, multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961 under NJSA 52:14-17.25 et seq., to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents. The SHBP was extended to employees, retirees, and dependents of participating local public employers in 1964. The Fire District participates in the SHBP through a shared service agreement with the Township of Mantua. The plan provides fully-insured medical and prescription drug coverage to eligible retirees and their spouses.

The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the SHBP. **REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING
STANDARDS**

Independent Auditor's Report

Honorable Chairman and Members
of the Fire District
Mantua Township Fire District No. 1
155 Union Avenue
Sewell, New Jersey 08080

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and audit requirements as prescribed by Division of Local Government Services, Department of Community Affairs, State of New Jersey and the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Mantua Township Fire District No. 1, as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the Mantua Township Fire District No. 1's basic financial statements, and have issued our report thereon dated March 24, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Mantua Township Fire District No. 1's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of Mantua Township Fire District No. 1's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Mantua Township Fire District No. 1's financial statements are free from material misstatements; we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* or the requirements of the Division of Local Government Services.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

GENERAL COMMENTS

Contracts and Agreements Required to be Advertised for NJSA 40A:11-4

NJSA 40A:11-4 states "Every contract or agreement awarded by the contracting agent for the provision or performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the governing body of the contracting unit to the lowest responsible bidder after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other law."

The Fire District has the responsibility of determining whether the expenditures in any category will exceed the bid threshold within the calendar year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Solicitor's opinion should be sought before a commitment is made.

The minutes indicate that resolutions were adopted and advertised authorizing the awarding of contracts or agreements for "Professional Services" per NJSA 40A:11-5.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishings of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear cut violations existed.

Our examination of expenditures did not reveal individual payments, contracts or agreements in excess of the bid threshold "for the performance of any work or the furnishing or hiring of any materials or supplies," other than those where bids had been previously sought by public advertisements or where a resolution had been previously adopted under the provisions of NJSA 40A:11-6.
